STUDENT TESTIMONIALS

"You showed us that there is a different world out there - a community that is there for us. Thanks to the help of my Fairy Godmother I have a plan in place for how to apply to culinary school for the fall. Next stop – the Food Network!"

"If more than 300 volunteers from this community - none who know me - were willing to invest their time to be here for ME, it made me realize that I do have a place in this world and I am going to fight to be a part of it."
